

WHY MAKE THE SWITCH? RELIABILITY BEGINS HERE

MECHANICAL LOCKING

Leaves air gaps
between threads

⊗ Only 15% metal contact

LOCTITE® THREADLOCKER

Fills 100% of thread gaps,
no air left

✓ Locks from within threads

- ⊗ Loosen under vibration and thermal expansion
- ⊗ Only 15% metal-to-metal contact
- ⊗ Prone to corrosion and galling
- ⊗ Multiple shapes and sizes → high inventory
- ⊗ Expensive and time-consuming
- ⊗ Risk of unplanned downtime

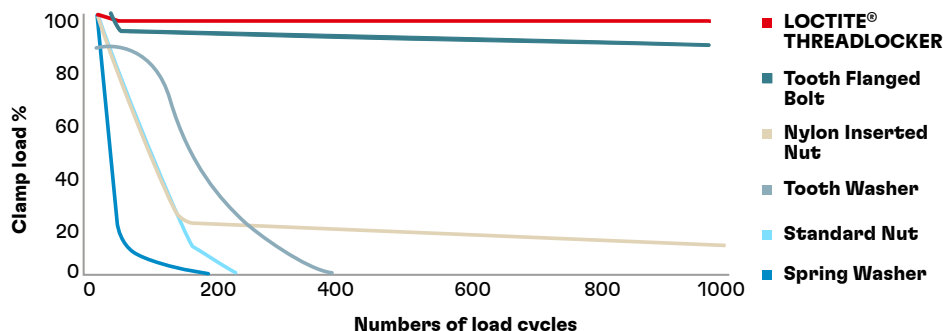

- ✓ Fills 100% of thread gaps → no loosening
- ✓ Best clamp load retention vs all devices
- ✓ Seals threads against corrosion
- ✓ One product fits all fastener sizes
- ✓ Lower cost, faster application
- ✓ Eliminates unplanned downtime

PROVEN PERFORMANCE

100%
Thread gap filled
